

# CLEAR

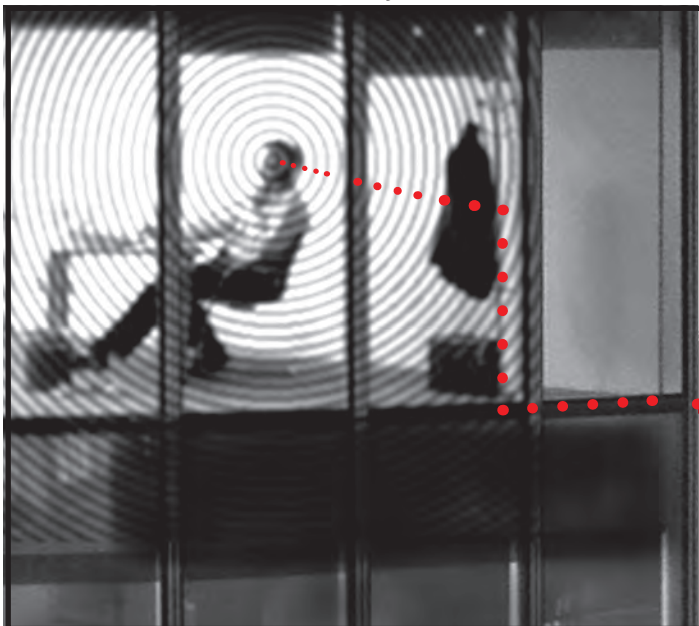

C-LEVEL EAVESDROPPING AUDIT & REPORT FOR ENTERPRISE ORGANIZATIONS

A security solution for uncovering eavesdropping and espionage in your organization *before* your secrets and strategies are used against you.

One low per deim fee includes:

- Technical Surveillance Inspection
- Wi-Fi Security & Compliance Audit
- General Information Security Survey
- Free Smartphone Security Solutions

*"When was the last time your office was cleared?"*

**Businesses and governments routinely sweep** their boardrooms, C-suites, conference rooms, off-site locations, homes and vehicles. Two to four times per year is average. This process is called Technical Surveillance Countermeasures, or just TSCM.

**CLEAR** combines advanced TSCM inspections with a holistic approach to information security. In addition to checking your workspaces for illegal electronic surveillance we:

- conduct Wi-Fi security & compliance exams,
  - survey for other info-security loopholes,
  - make cost-effective recommendations,
  - and assist you with other technical security matters — such as smartphone security.
- [“Is My Cell Phone Bugged?”](#), is our book.

#### **CLEAR solves issues...**

Multiple vendor vetting, contracting, and scheduling is time-consuming, and expensive. Trying to locate credible and *loyal* local vendors can range from difficult to impossible – especially internationally. **Lowest common denominator** effectiveness is usually the outcome. High quality security is never attained.

**CLEAR** provides uniform quality and assurance. Governments have the right idea. They send **their own** trusted experts to detect illegal eavesdropping. Now, you can too.

**CLEAR** all your sensitive locations. Maximize your savings by adding subsidiaries and regional offices to your CLEAR program.

**“You won’t know, until you inspect.”**

Let us prepare a no-obligation **CLEAR Proposal** for your organization.

Estimates are also available for smaller, or “*Let’s try them once,*” assignments.

#### **CLEAR is simple...**

Services are charged per day.

*The more days used, the lower the cost.*

Protection throughout your organization is uniform, and makes economic sense.

#### **CLEAR benefits...**

- Cost-effectiveness.
- One point-of-contact.
- International coverage.
- Documented due diligence.
- Easy program management.
- *Proven* loyalty and trustworthiness.
- Extensive knowledge and contacts.
- Uniform procedures, reports and billing.
- Assurance of technical expertise.

Murray Associates has over thirty years experience protecting vital information and personal privacy. Contact us to discuss **CLEAR**.
